8" shelf height*, 5" clear divider x 10" long uses a 3" (8" shelf - 5" high divider) clear strut ST2
SDT5-10-ST2

* Note shelf height is distance from bottom of shelf to underside of shelf above where tip of strut will seat.

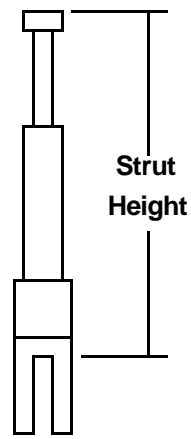

Two struts are included with each divider.

Dividers have a non-skid elastomer attached along the bottom edge and the strut has a similar non-skid cap to eliminate slippage on any surface. The strut's base is plastic and the balance is plated steel and brass.

Dividers can be shaped along front or top edge to highlight signage or product information.
